FULL STACK DEVELOPER | TEAM LEAD | SAAS PRODUCT DEVELOPER | SERVER & DEPLOYMENT SPECIALIST

Full Stack Developer with 2+ years of professional experience in web development, custom software development, SaaS products, CRM systems, HRM solutions, employee monitoring software, and eCommerce platforms. Skilled in PHP, Laravel, WordPress, React.js, Next.js, MySQL, REST APIs, HTML5, CSS3, JavaScript, Bootstrap, and modern web technologies.

Experienced in designing, developing, and deploying responsive websites, custom business applications, and scalable web solutions. Proven ability to lead development initiatives, mentor interns, implement secure authentication systems using Laravel Sanctum and JWT, integrate third-party APIs, and manage complete project lifecycles from development to production deployment.

Proficient in Linux server administration, VPS hosting, domain and DNS management, SSL configuration, DevOps practices, technical SEO, AI-assisted development, and digital marketing technologies including Google Analytics (GA4), Google Tag Manager (GTM), Google Search Console (GSC), Meta Ads integration, and WhatsApp Business API.

TECHNICAL SKILLS

Frontend:

- HTML5
- CSS3
- JavaScript (ES6+)
- jQuery
- AJAX
- Bootstrap 5
- React.js
- Next.js

Back-End Development:

- PHP
- Laravel
- REST API Development
- API Integration

Database:

- Mysql

CMS & E-Commerce:

- WordPress
- WooCommerce
- Advanced Custom Fields (ACF)
- Custom Theme Development
- Custom Plugin Development
- Elementor

Authentication & Security:

- Laravel Sanctum
- JWT Authentication
- Token-Based Authentication
- Role-Based Access Control

Tools:

- Git
- GitHub
- Postman
- VS Code
- WSL
- CMD-Terminal

DevOps & Server Management:

- Linux (Ubuntu)
- VPS Server Management
- PM2
- Nginx
- Apache
- SSL Installation
- Domain & DNS Configuration
- Production Deployment
- Server Monitoring

Hosting Platforms:

- Hostinger
- GoDaddy
- cPanel
- Name Server Management
- VPS Hosting
- Cloudflare

Marketing & Integrations:

- Meta Pixel Integration
- Facebook Conversion Tracking
- WhatsApp API Integration
- Payment Gateway Integration
- Razorpay Integration

Analytics & SEO:

- Google Analytics (GA4)
- Google Tag Manager (GTM)
- Google Search Console (GSC)
- Google Merchant Center
- Technical SEO
- Website Performance Optimization

AI & Productivity:

- Prompt Engineering
- AI-Assisted Development
- ChatGPT
- AI-Based Code Generation
- AI Workflow Optimization

Soft Skills:

- Team Leadership
- Problem Solving
- Project Planning
- Client Communication
- Team Collaboration
- Time Management
- Mentoring Interns

Team Lead Experience:

- Interns onboarding
- Task assignment
- Code review
- Training junior developers
- Hiring support
- Project planning

PROFESSIONAL EXPERIENCE

VSM Global Technologies - Full-stack Developer

Feb 2024 – Jan 2025

- Started as a web developer, building and delivering **20+ websites** using front-end technologies like **HTML5, CSS3, JavaScript**, and frameworks like **Bootstrap and jQuery**.
- Transitioned to full-stack development by learning **PHP** and **MySQL**, and successfully developed **5+ e-commerce** websites with **payment** gateway and **API** integrations.
- Enhanced front-end expertise by mastering **Next.js**, creating modern and responsive web applications.
- Gained proficiency in **Laravel** and completed 5+ projects using **WordPress**, including custom themes and **plugins**.

Markerz Global Solution - Wordpress Developer

Feb 2025 – May 2025

- Develop and maintain custom WordPress **themes** and **plugins** tailored to client specifications.
- Collaborate with design teams to translate UI/UX designs into functional, responsive websites.
- Implement **Advanced Custom Fields (ACF)** to create dynamic and flexible content management solutions, enhancing client control over website content.
- Design and integrate complex navigation systems using **Max Mega Menu**, improving user experience across devices.
- Optimize website performance, achieving a 40% improvement in load times.
- Implement **SEO** strategies, resulting in a 30% increase in organic traffic.
- Ensure website **security** by integrating best practices and performing regular updates.

Jun 2025 – Present

Mincarve Cummunication - Senior Developer

- Mincarve Communication – Senior Full Stack Developer & Team Lead
- Lead full-stack development projects using PHP, Laravel, WordPress, MySQL, React.js, and Next.js.
- Manage and mentor interns and junior developers, assigning tasks and reviewing code quality.
- Participate in technical hiring and onboarding activities for development teams.
- Design and develop custom software solutions, SaaS products, CRM systems, and HRM platforms.
- Build and maintain secure REST APIs with token-based authentication using Laravel Sanctum and JWT.
- Integrate third-party services including payment gateways, WhatsApp APIs, Meta Pixel, and external business APIs.

- Deploy and maintain applications on Linux VPS servers, handling domain configuration, SSL setup, and production environments.
- Manage server-side operations using Ubuntu, PM2, Nginx, and hosting platforms including Hostinger and GoDaddy.
- Implement technical SEO, Google Analytics (GA4), Google Tag Manager (GTM), and Google Search Console (GSC).
- Optimize website performance, security, and scalability for business-critical applications.
- Collaborate with clients and internal teams to deliver high-quality software solutions on schedule.

PROJECTS

Lead Management CRM:

- Developed a CRM platform for lead tracking, customer management, lead assignment, follow-ups, and reporting.
- Implemented role-based access control and REST API architecture.
- Integrated WhatsApp communication workflows and lead status automation.

HRM & Employee Management System:

- Built a Human Resource Management platform with employee management, attendance tracking, leave management, payroll processing, and reporting modules.
- Implemented Laravel Sanctum authentication and role-based permissions.

Employee Monitoring Software:

- Developed an Electron.js-based desktop application for employee monitoring and productivity tracking.
- Integrated screenshot capturing, activity monitoring, and centralized reporting features.

Plot Booking Management System:

- Developed a real-estate plot booking application for customer registration, plot allocation, booking management, and payment tracking.
- Integrated dynamic reporting and admin dashboards.

SaaS Business Applications:

- Designed and developed custom SaaS products using Laravel, PHP, MySQL, and REST APIs.
- Built scalable multi-user platforms with authentication, permissions, and workflow automation.

E-Commerce Platforms:

- Developed multiple e-commerce websites with Razorpay payment gateway integration, order management, and API integrations.

Invoice & Billing Management System:

- Developed invoice generation and billing software with reporting, customer management, and payment tracking.

Service Desk Application:

- Built a ticket management system with issue tracking, employee assignment, escalation workflows, and reporting dashboards.
